

I Tested Positive for COVID-19

If you tested positive for COVID-19 you will receive a text from Taney County Health Department asking that you complete a questionnaire. A separate questionnaire needs to be completed for each person in the home that tested positive. Completing this questionnaire will ensure that you receive a release letter in a timely manner.

If you tested positive with an At Home COVID-19 test please click on the link below and complete the questionnaire. This will allow TCHD to provide you with a letter verifying a self-reported positive COVID-19 test.
